There are more than just medical bills to pay after a heart attack, stroke, or other unexpected covered medical condition. Critical Illness Insurance provides a benefit payment that can help. This document includes expanded cost and benefit information for Critical Illness Insurance. As you explore, keep in mind:

No medical questions or tests are required for coverage.

Employees get an annual Wellness Benefit of \$50 for completing an eligible health screening test.

Benefit payments go directly to you. Use them however you'd like!

Critical Illness Insurance doesn't replace your medical coverage; instead, it complements it. **The benefit** payments don't go out to pay for medical bills or treatments you may need, instead they come in—directly to you—to be used however you'd like. Choose this supplemental health insurance product for added protection if one of the following covered conditions comes your way.

Critical Illness Insurance is a limited benefit policy. It is not health insurance, and does not satisfy the requirement of minimum essential coverage under the Affordable Care Act.

## What's covered by Critical Illness Insurance?

Critical Illness Insurance provides benefits for the covered conditions and diagnoses shown below. The most common conditions we pay claims for include:

## Sample benefit amounts

If one of these events happens on or after your coverage effective date, and your claim is approved, benefits are payable at 100% of the Critical Illness benefit amount shown above unless otherwise stated. Use your benefit payment however you'd like:

Covered Condition	% of Benefit
Heart attack*	100%
Cancer	100%
Stroke	100%
Kidney failure**	100%
Coronary artery bypass	50%

<sup>\*</sup> A sudden cardiac arrest is not in itself considered a heart attack.

This is only a small preview of the benefits available to you.

See the full Schedule of Benefits toward the end of this document.

<sup>\*\*</sup> Listed in the certificate of coverage as "major organ transplant," which means the irreversible failure of your heart, lung, pancreas, entire kidney or liver, or any combination thereof, determined by a physician specialized in care of the involved organ.
